Footnotes and important risk warnings

¹The average holding period is calculated by WHEB in accordance with the requirements of the UCITS V directive, and derived from fund turnover over the last 12 months as of the end of the reporting month. This calculation method can result in very long reported holding periods when most of the trading volume is explained by subscriptions and/or redemptions, and can even result in a negative portfolio turnover figure when subscriptions and redemptions exceed purchases and sales. As of 31st August 2021 the UCITS holding period based on the UCITS methodology was -55.8 years. Whilst the resulting figure is negative, we will report the outcome here within the footnotes and not on the front page of this factsheet to avoid the risk of presenting a confusing figure.

²Tracking error refers to the 5 year ex-post volatility from the average of excess returns of the Reference Portfolio versus the MSCI World Index.

³Active Share refers to the % overlap between the Fund and MSCI World Index weightings. Data as at 31st August 2021, source: Factset.

⁴Data for Theme Breakdown is provided by FactSet. Small differences in cash percentage figures may arise.

⁵Data for Geographic and Market Capitalisation allocations are provided by FactSet.

⁶The MSCI World Index is quoted at month end with net dividends reinvested and without the deduction of any expenses (in contrast to the portfolio). Index data are provided by MSCI Barra via Bloomberg, calculated on an unhedged Euros.

⁷The Reference Portfolio is the FP WHEB Sustainability C Acc Primary Share Class (EUR) calculated net of fees on a mid to mid basis. The share class was launched in December 2017. Prior to this date, the reference share class is the FP WHEB Sustainability C Acc Primary Share Class (GBP) converted into EUR.

Risks include: the value of units in WHEB Sustainable Impact Fund ("Fund") may increase or decrease and you may not get back the amount originally invested, for reasons including adverse market and foreign exchange rate movements. Past performance is not a guide to future returns. The Fund invests in equities and is exposed to price fluctuations in the equity markets, and focuses on investments in mid-sized companies in certain sectors so its performance may not correlate closely with the MSCI World Index (the Fund's benchmark). For full risks, please see fund prospectus on www.whebgroup.com.
