**Footnotes and important risk warnings**

The FP WHEB Sustainability Fund was originally launched on 8 Jun 2009. Effective re-launch as at 30 April 2012 after the portfolio was transitioned to a new investment process by a new investment team.

<sup>1</sup>The average holding period is calculated by WHEB in accordance with the requirements of the UCITS V directive, and derived from fund turnover over the last 12 months as of the end of the reporting month. This calculation method can result in very long reported holding periods when most of the trading volume is explained by subscriptions and/or redemptions, and can even result in a negative portfolio turnover figure when subscriptions and redemptions exceed purchases and sales. As of 31 January 2022 the UCITS holding period based on the UCITS methodology was 10.2 years. During periods when the resulting figure is negative or more than 100 years, we will report the outcome here within the footnotes and not on the front page of this factsheet to avoid the risk of presenting a confusing figure.

<sup>2</sup>Tracking error refers to the 5 year ex-post volatility from the average of excess returns versus the MSCI World Index.

<sup>3</sup>Active Share refers to the % overlap between the Fund and MSCI World Index weightings. Data as at 31 January 2022, source: Factset.

<sup>4</sup>Data for Theme Breakdown, Geographic Allocation and Market Capitalisation allocation are provided by FactSet. Small differences in cash percentage figures may arise.

<sup>5</sup>The MSCI World Index is quoted at month end with net dividends reinvested and without the deduction of any expenses (in contrast to the portfolio). Index data are provided by MSCI Barra via Bloomberg, calculated using GBP. The MSCI World Index is unmanaged and cannot be invested in directly. MSCI returns may increase or decrease as a result of currency fluctuations. Performance figures for the FP WHEB Sustainability Fund are calculated mid to mid.

<sup>6</sup>IA Global refers to the fund weighted average performance of the UK Investment Association Global equity sector peer group. Source FE Analytics.

<sup>7</sup>Effective from 2<sup>nd</sup> January 2020, we have introduced a single, fixed rate "Management Fee" which includes all of the costs and charges that were previously in the ongoing charges figure (or "OCF") of the Fund. As a result, various costs and charges associated with services to the Fund such as depository and custody, transfer agency, legal, audit and fund accounting charges are now paid out of the single, fixed rate Management Fee. For further information see: <http://www.whebgroup.com/fp-wheb-sustainability-fund-moves-to-a-single-fee/>

<sup>8</sup>The D Share Classes are Sponsor controlled share classes for use by intermediary and institutional managed / advised investments with a minimum holding of £25 million.

<sup>9</sup>The B Share Class is only available to Founder Shareholders. To be eligible as a Founder Shareholder in the B Share Class, an investor must hold at least £10m across the Fund's share classes. Upon attaining the Class B Shares Investment Target £100m, the Authorised Corporate Director has ceased admitting new Founder Shareholders.

Risks include: the value of units in FP WHEB Sustainability Fund ("Fund") may increase or decrease and you may not get back the amount originally invested, for reasons including adverse market and foreign exchange rate movements. Past performance does not predict future returns. The Fund invests in equities and is exposed to price fluctuations in the equity markets, and focuses on investments in mid-sized companies in certain sectors so its performance may not correlate closely with the MSCI World Index (the Fund's benchmark). For full risks, please see fund prospectus on [www.whebgroup.com](http://www.whebgroup.com).
